

MEAN GREEN CONCENTRATE

Product # 714

Multi-surface cleaner powered with Hydrogen Peroxide

This liquid multi-surface cleaner, degreaser and stain remover uses the power of hydrogen peroxide and the degreasing ability of d-Limonene to lift away tough stains and soils from virtually any surface. It is specially formulated with a stable form of hydrogen peroxide at a high pH level, so it remains in an active state for a longer period of time than other "oxygen-based" cleaners. The concentrated formula can also be diluted at a variety of rates to clean everything from delicate fabrics to hard surfaces.
