

PUT THE FREEZE ON WINTER EQUIPMENT DOWNTIME... WITH **LIQUID HEAT** ICE PREVENTATIVE

Ice can hit your coal operation where it hurts... **downtime dollars**. Every winter a substantial amount of production and maintenance dollars are lost to ice-related equipment problems.

Ice prevention is the key to controlling these costly problems. LIQUID HEAT has a proven track record of preventing ice from adhering to equipment surfaces at temperatures down to -60°F . And LIQUID HEAT will last...last...last with one application.

LIQUID HEAT is perfect for belts, rollers, pulleys, idlers, hoists cables, construction equipment, docks, walks, ramps, ladders, bridges or any other areas essential to your operational safety and production.

Check the advantages...

- Nonflammable and OSHA approved.
- Noncorrosive and harmless to all surfaces.
- Out performs antifreeze, oil, calcium solutions and salt.
- Eliminates need for special "side release agent" in coal car loading.
- Cost effective and easy to apply.

When the temperature goes down, keep your profits up with LIQUID HEAT ice preventative! Contact Zircon Industries, Inc. P.O. Box 22483, Cleveland, Ohio 44122 Phone: (216) 581-7570.

Available in drums and bulk, LIQUID HEAT can be applied with hand sprayer or from overhead tanks (manual or automatic).

Assure quick startups at sub-zero temperatures.

Prevents ice formation on conveyor belts, idlers, rollers and snubber pulleys.

LIQUID HEAT...Perfect for chutes and hoppers, truck beds and standing equipment.
