Z-99 SAFETY SOLVENT DEGREASER

Auto Shop and Industrial Safety Solvent Degreaser

DESCRIPTION

Non-conductive, no flash point solvent degreaser and spot cleaner that quickly and effectively cleans and degreases auto, shop and industrial equipment. Removes grease, oil and other heavy soils quickly and without damage or injury to metals, paints or rubber. Fast drying. *For Industrial Use Only.*

FEATURES AND BENEFITS

Easy to use aerosol gets into hard to reach areas. High solvency, non-conductive formula has no flash point and is corrosion inhibited. Cleans surfaces instantly, leaving them spotless. Dries quickly leaving no residue. Ultra-high, dielectric strength allows for usage around electrical equipment. Contains no ozone depleting substances.

1,1,1 Trichlorethane free.

APPLICATION AND USES

For use on: steel, chrome, copper, brass, glass, ceramic, marble, bakelite, polypropylene, viton, solvent-resistant plastics, elastomers, fabrics, and coated surfaces.

Cleans and degreases equipment such as: motors, refrigeration equipment, printing equipment, engines, air conditioning units, cowling equipment, power tools, electric fans, typewriters, electronic equipment, air filters, carburetors, traffic signal boxes, generators, machine tools, wrapping machines, keys and locks.

DIRECTIONS FOR USE

Spray surface thoroughly, using flushing action of the spray when possible. Use scraper, scrub brush, abrasive pad or other appropriate means when necessary to aid in the removal of stubborn spots. Wipe off residual liquid with a clean rag or towel, or allow to drain off and air dry.

TECHNICAL DATA AND PROPERTIES:

Form:	Wet Spray	Storage:	Max.120F
Color:	Colorless	Freeze/Thaw Stable:	Yes
Fragrance:	Mild, pleasant	Solvency/emulsification:	Excellent
Viscosity:	Thin	Fumes or vapors:	See MSDS
Flash point:	None	Dilution w/water:	N/A
pH:	N/A	Density:	1.45
Flammability:	Level 1 (NFPA Code 30B)		

Packaged in 20 oz. aerosol cans
