NON-FLAMMABLE • NON-CONDUCTIVE
NON-COMBUSTIBLE • NON-CORROSIVE

A residue free, super fast drying, high power spray that dissolves grease and rinses away dirt and grime without injury to working parts. Contains an acceptable replacement for 1,1,1-trichloroethane under the EPA SNAP program. Contains no CFC’s, ozone depleting chemicals or petroleum distillates. Features a 36,200 volt dielectric strength combined with non-flammability make this the only degreaser safe for use on electric motors, generators, relays and control panels even while equipment is in operation.

DIRECTIONS: Saturate part to be cleaned. Wipe or allow to air dry. For heavily encrusted areas, brush, then rinse off with a second application. May remove some paints, pre-testing is suggested.

DO NOT USE ON PLASTICS

WARNING: Contains Trichloroethylene (79-01-6), Isopropyl Alcohol (67-63-0) and Carbon Dioxide Propellant (124-38-9). Use only in a well ventilated area with a constant supply of fresh air. Avoid breathing vapors or spray mist. Excessive inhalation of vapors may cause nasal and respiratory irritation and central nervous system effects including dizziness, nausea and headaches. In confined or poorly ventilated areas, vapors can cause unconsciousness or death. If you experience eye watering, headaches or dizziness, increase air flow, wear respiratory protection or leave the area. Avoid eye contact and excessive skin contact. Do not expose to heat or store at temperatures above 120°F. Do not puncture or incinerate container.

RECYCLING: When emptied through normal use, aerosol containers are completely recyclable. Consult local authorities.

FIRST AID:

IF EYE CONTACT: Flush with large amounts of cool running water for at least 15 minutes while holding upper and lower lids open. If irritation persists get medical attention immediately.

IF SKIN CONTACT: Wash with soap and water. If irritation persists seek medical attention.

EXCESSIVE INHALATION: Remove to fresh air. Seek medical attention immediately. If breathing stops give artificial respiration.

IF INGESTED: Do not induce vomiting. Seek medical attention immediately.

HMIS RATING: Health, 2; Flammability, 0; Reactivity, 1; Personal Protection, G.

For further information consult Material Safety Data Sheet.
