ZL98 HIGH PURITY CONTACT CLEANER

DESCRIPTION

High purity electronic contact cleaner. Non-flammable and dielectric to 26,000 volts. For use on circuit boards, switches, control panels, and other sensitive electronic equipment. Quick drying formula will not harm most plastics and rubbers. Do not use on styrene or polystyrene. Pretest all plastics.

APPLICATION AND USES

Effectively cleans and degreases electric motors, generators, stator motors, relays, circuit breakers, instruments, rheostats, meters, times, and transmitters.

Works well on office equipment, vending machines, appliances - any place where electrical equipment exposed to the air can accumulate a buildup of dust, grease or oil that slows down the operation.

DIRECTIONS FOR USE

Spray surface and allow product to soak for 1-2 minutes. Wipe thoroughly with a clean cloth.

FEATURES

- *Non conductive
- *Non corrosive
- *Fast evaporating mixture
- *Can be used on "operating" electrical equipment

BENEFITS

- *No possibility of causing a short circuit
- *Overspray will not harm equipment
- *No moisture damage to surrounding parts
- *No down time is required to turn off, wind down, clean, turn on and bring machine back up to speed

SPECIFICATION

Appearance:	Clear
Odor:	Ethereal
Propellant:	CO2
NFPA 704:	3
NFPA 30B:	1

PRE-TEST ON ALL PLASTIC SURFACES

Packaged in 16 oz. aerosol cans
