

# FLOATING LIFT STATION DEGREASER

*Strips away grease with the power of **d'Limonene!***

An all-natural solution for keeping lift station surfaces free of grease accumulations. Made with 100% **d'Limonene**, the product has a non-emulsifying formula, therefore, it floats on the surface of water. As water levels rise and fall, it coats all lift station surfaces and removes heavy grease deposits from lift station walls. It also leaves behind the fresh scent of oranges as it cleans. This solution is biodegradable and it will not interfere with the biological digestion of existing bacteria.

## Features and Benefits

- Contains 100% natural **d'Limonene** to dissolve grease and fat and neutralize odors in lift stations
- Floating formula acts as an “odor barrier” to lift stations to keep odors from escaping
- A red indication lets you know when to add more
- Will not harm bacterial action in sewage treatment plants

### PACKAGED

#### BULK:

- 4×1 gallons/case
- 5-gallon pails
- 55 gallon drum
