LATEX 100 'STATIC DUST CONTROL SEALANT'

APPLICATION GUIDELINES

LONGEVITY	BLEND RATIOS	COVERAGE <i>(sq. ft per blended gal)</i>
One week	1 gal Latex to 100-gal water	40 sq. ft
1-2 months	1 gal Latex to 50-gal water	40 sq. ft
3-4 months	1 gal Latex to 25-gal water	40 sq. ft
6 months	1 gal Latex to 8-gal water	40 sq. ft
12-18 months	1 gal Latex to 4-gal water	40 sq. ft

- We recommend 1 gal of ZHP water additive per 2,000 gallons Latex blend to be added LAST.
- Blend ratios can be altered by making proper relative square foot coverage adjustment.
- Seal drum after use. Wash out line of sprayer after applying.
