## **LATEX 100**

### **'STATIC DUST CONTROL SEALANT'**

#### **APPLICATION GUIDELINES**

| <b>LONGEVITY</b> | <b>BLEND RATIOS</b>          | <b>COVERAGE</b><br><i>(sq. ft per blended gal)</i> |
|------------------|------------------------------|--|
| One week         | 1 gal Latex to 100-gal water | 35 sq. ft  |
| 1-2 months       | 1 gal Latex to 50-gal water  | 35 sq. ft  |
| 3-4 months       | 1 gal Latex to 25-gal water  | 35 sq. ft  |
| 6 months         | 1 gal Latex to 8-gal water   | 35 sq. ft  |
| 12-18 months     | 1 gal Latex to 4-gal water   | 35 sq. ft  |

- We recommend 1 gal of ZHP water additive per 2,000 gallons Latex blend to be added LAST.
- Blend ratios can be altered by making proper relative square foot coverage adjustment.
- Seal drum after use. Wash out line of sprayer after applying.
