

GLYCERIN DC-100

Untreated Road

Treated Road

- **Safe, effective, and economical "do-it-yourself" dust control solution to control dust on unpaved roads.**
- **Glycerin is a byproduct of biodiesel manufacturing. It is 100% food derived from soy oil.**
- **100% biodegradable/safe for aquatic life.**
- **One 330-gallon tote covers approximately 13,000 sq. ft. and last 3-4 weeks. Subsequent applications provide residual enhancement.**
- **Mix 50/50 with water. Apply at a rate of one gallon to 20sq. ft.**
- **Intermittent watering or atmosphere moisture will maintain product activity.**
- **Subsequent applications can go to one gallon to 40 sq. ft. for a total coverage of approximately 26,000 sq. ft per tote.**
